

WHY NASAL CARE ?

– We take nasal care seriously –

About Baby Health Care, Inc.

BABY HEALTH CARE

Introducing a new home nasal aspirator!

Did you know that proper infant nasal care has **huge benefits**?

Proper nasal care helps to:

- **Prevent middle ear infection**
- **Promote early healing of the baby's condition**
- **Clear nasal passage which provides better sleep at night**

In pediatrics, doctors use medical suction units to remove nasal mucus and also recommend the parents to do the nasal care at home.

We at Baby Health Care focused our attention on this fact and pioneered BabySmile S-502, the professional nasal aspirator available at home.

Reliable, affordable and **easy-to-use** solutions for baby's health care

Baby Health Care is the brand leader when it comes to introducing affordable, high value baby health care products to everyday households. We are committed to continued development of new devices, in an effort to meet every mom's demands for her baby.

As a pioneer of the home-use nasal aspirator, we are applying innovative technology and sophisticated design to all of our products to keep our device reliable and enjoyable.

Baby Health Care provides quality products with extensive benefits not only for the baby's health but also supporting family's quality of life.
